Abstract submission deadline: June 30th, 2009

Registration deadline: September 10th, 2009

MIRAS 2009

2nd Spanish Meeting on Synchrotron Radiation Infrared Microspectroscopy

The meeting is for all the members of the Spanish scientific community that use Infrared Spectroscopy in their research, with the aim to present the advantages of synchrotron IR light sources, and to support the **MIRAS** proposal for the development of a state-of-the-art Infrared Microspectroscopy beamline at ALBA.

at ALBA

Cerdanyola del Vallès (BARCELONA)

Invited Speakers

- Paul Dumas, Soleil Synchrotron, France: "Which Scientific Communities are getting involved in Synchrotron IR microscopy?"
- Mark Tobin, Australian Synchrotron, Australia: "New applications of Synchrotron IR beamlines"
- Gary Ellis, ICTP, CSIC, Madrid: "New opportunities for the study of polymeric materials using synchrotron IR microspectroscopy"
- Phillippe Lerch, PSI, Swiss Light Source, Switzerland: "Condensed matter physics and IR synchrotron radiation"
- Alfredo Segura, Universidad de Valencia, Valencia: "Synchrotron IR microespectroscopia at very high pressure"
- Ganesh Sockalingum, Universite de Reims, France: "Cell and Tissue Analysis: A multimodal IR Microspectroscopy Approach"
- Gonzalo Santoro, ICTP, CSIC, Madrid: "La propuesta MIRAS: Una línea de microespectroscopía IR para ALBA"
